

FAMOUS SCULPTOR'S CONCEPTION OF "WATER," FOR COURT OF THE UNIVERSE.

Scene in one of the sculptural warehouses on the exposition grounds. The figure above is that of a remarkable sculptural composition by Robert I. Aitkin, one of the most brilliant of American sculptors. The figure, representing the sculptor's conception of "Water," is a companion piece to three other symbolical sculptures—"Fire," "Earth" and "Air." The four figures, typifying the elements, will flank the descents into a vast sunken garden in the superb court of honor, the Court of the Universe. On the left may be seen the original model from which the figure was enlarged.

VAST SOUTH GARDENS OF THE MARVEL EXPOSITION CITY AT NIGHT.

View of the Exposition grounds at night. The Tower of Jewels, rising some 435 feet into the air, its architectural lines marked with thousands of glittering hand-polished crystals of many colors and its whole surface softly glowing with the reflected light from the arcs, which are hidden from the spectator. Further down the facade, at about the center of the picture, may be seen the two slender towers which guard the entrance to the Court of Palms and directly in front of the Tower of Jewels is A. Stirling Calder's "Fountain of Energy." In the background at the extreme left may be seen the top of the triumphal Arch of the Rising Sun, surmounted by the group "The Nations of the East."

HUGE PALACE OF MACHINERY AT WORLD'S GREATEST EXPOSITION.

Copyright, 1914, by Panama-Pacific International Exposition Company.

The great Palace of Machinery as seen from its south facade. The mechanical triumphs of the world will be displayed in the great Palace of Machinery at the Panama-Pacific International Exposition at San Francisco next year. This colossal structure is almost a thousand feet long, four hundred feet wide and is 135 feet high. The installation of exhibits in the huge structure has already begun. Three vessels the size of the world's largest steamship could easily be placed in this vast structure and with room to spare.

THE WOMAN WHO BANKS

what she can save from her house-keeping expenses is sure to be independent in the future, and, when she goes shopping, she can always draw enough from her own personal account to buy anything she has set her mind on without consulting hubby. We especially invite the accounts of single or married women and offer them good interest on their deposits.
